

# WELDAS®

Full info about:

10-2750

Highest quality cowhide for oil and weather resistance.

This 36 cm length *STEERSOtuff* welding and work glove is constructed similar to the *DEERSOsoft* glove 10-2850. The thick and pliable grain cowhide makes this glove durable, and oil and weather resistant. The glove back has the *COMFOflex* lining for a comfortable cushion effect and sweat absorbency. This versatile *STEERSOtuff* glove is ideal for working in an environment that involves mixed applications, such as material handling, fitting, and welding.
